

Garden Centres

About Us

For over 50 years, our group has provided point of sale and retail management solutions across a wide range of sectors.

Garden centres are unique. You're running a retail operation – plants, gifts, outdoor living, gardening sundries – alongside a food and beverage operation that's often just as important to footfall and repeat visits. Few businesses juggle two such different disciplines under one roof.

That's exactly why we've brought our retail and hospitality expertise together. Our combined solution helps garden centres reduce waste, attract new customers and run every part of the business, from the till in the shop area to the kitchen pass in the restaurant, with one connected partner.

How We Help Your Retail Floor

Whether it's plants, gifts, outdoor furniture or gardening essentials, your retail floor needs a system that keeps pace with seasonal demand and a varied product range.

EPOS & Integrated Payments

Enhance your retail operations, streamline processes and boost sales. Deliver a shopping experience that's not just smoother, but more personal.

Stock Management

From purchase orders to warehousing, gain real-time visibility of stock levels across your entire business, so you only order what you need and reduce waste on perishable stock like plants and bedding.

Online Stores

Sell plants, gifts and garden products online with simplified listings, synced stock levels and valuable reporting accessible through a unified solution.

Intelligent Reports

Identify your bestsellers, spot seasonal trends and make confident purchasing decisions ahead of each growing season.

Concessions

Many garden centres host concessions – florists, gift specialists, local producers. Connect each one to your central system for real-time visibility of stock, sales and performance.

Warehouse Management

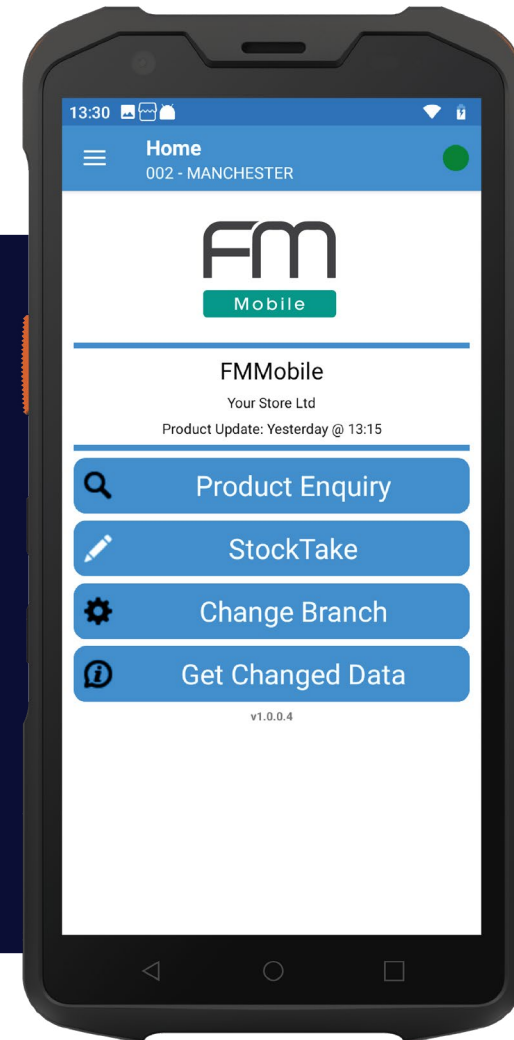

Keep your goods-in area and storage as efficient as your sales floor, whether you're picking for click & collect or restocking the shop.

Simplify retail operations with FM Mobile

Your Portable Stock Management Solution

Ideal for your retail floor, garden centre warehouse and goods-in area. Give your team on-the-go control of stock takes, transfers, goods inward and bin management.

- ✓ Compact, handheld design
- ✓ Faster and more accurate stock takes
- ✓ Streamline warehouse stock movement processing
- ✓ Seamlessly manage stock movements
- ✓ Remote support
- ✓ Automated software updates
- ✓ Stock visibility across all stores

"Having partnered with Cunninghams for many years, I have no hesitation in recommending the services that they provide. They interpret our requirements precisely and deliver dedicated solutions and upgrades for our expanding business."

How We Help Your Café & Restaurant

Your café or restaurant is often the reason customers stay longer and come back more often. It needs to run as smoothly as the rest of the business.

Single or Multi-Site Management

Manage your café, restaurant and any additional outlets through one system. Update menus, settings and prices live, across every site.

Discounts & Promotions

Run seasonal offers, meal deals and member discounts – by day, time or on the fly.

Stock Management

Real-time, accurate stock control for perishable food and drink stock, helping you order only what you need and reduce waste.

Information Labels

Create shelf edge, barcode and Natasha's Law-compliant labels, with allergen, nutritional and ingredient information printed on label or receipt.

Customer Loyalty

Launch and manage loyalty schemes directly from your EPOS, rewarding regular café and restaurant customers with discounts, freebies or points.

Powerful Reports

Understand performance across your food and beverage operation to help you make more informed decisions.

Online Ordering

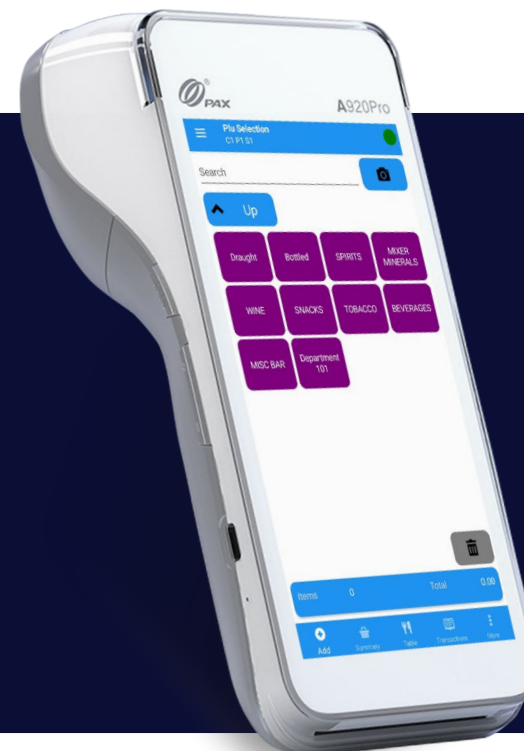

Let customers order ahead for collection, or introduce 'order to table' in your restaurant to reduce queues during peak times. Connect directly to platforms like Just Eat and Deliveroo.

Experience Quantum Go

All-in-One Portable EPOS & Payment Solution

Take orders and payments from any location with one device. Ideal for cafés and restaurants where you'll no longer need to juggle stationary terminals during busy trading hours.

- ✓ Queue-busting solution for busy trading hours
- ✓ Compact design, ideal for limited counter space
- ✓ Fast and efficient table service
- ✓ Instant access to allergy and nutritional info
- ✓ Secure payments

Merchant Services

Tired of juggling different EPOS and payment providers across your retail and food operations? Bring everything together under one roof with a single, integrated payments solution.

 EPOS system  Payments  Support

Reduced Costs

We're proud to have helped our clients save up to 30% on their operational costs by consolidating their EPOS and payments management.

Simple Set Up

We'll set you up to take payments in no time with the latest EPOS and Android Chip & PIN technology, designed with convenience, security (P2PE compliant) and simplicity in mind.

No Hidden Charges

A totally transparent payments solution. No hidden transaction fees.

Integrated Payments

Say goodbye to manual order input on your EPOS and card terminal. Integrate payments to eliminate errors, speed up service and save on missed revenue.

Easy Switch

Currently with another merchant services provider? We might even be able to cover the cost of buying out your contract.

Support

Benefit from on-site, remote diagnostics and telephone calls from our highly skilled team. Plus an account manager by your side, as a dedicated point of contact.

Enhanced Customer Experience

Offer convenient cashback and Card Not Present (CNP) transactions..

Our Services

We can provide a variety of services to ensure your team and your business makes the most out of your point of sale system.

Consultation

These consultations are key to the project running smoothly. It is important that we have full knowledge of your business to allow us to provide you with a system that is fully configured to your requirements, ensuring that it is available to use from day one.

Project Management

For 5 decades, a personal approach has been paramount to our success. Your dedicated Account Manager will work closely with you and our project team to plan, coordinate and deploy your FM solution, including full bespoke system configurations.

Site Surveys

Preparation is the key to success. Our Account Managers complete an on-site survey to ensure that our installation engineers can implement your system with minimal disruption to your customers and business.

Help Desk & On-Site Support

Always there when you need us; on-site, online and telephone support from our own highly skilled nationwide engineers and support teams.

On-Site Training

On-site training tailored around your business needs.

We would love to show
you how Cunningham's
EPOS Group can help
your garden centre.
